Federation Goal Was Citizenship & International Understanding

The Appomattox County Home Demonstration Clubs had "Citizenship and International Understanding" for the federation goal during the past year. Every club in the county held a short discussion on this goal each month at the regular meeting. Each club has a federation goal leader who led the discussion. The topics studied were as follows:

1. Characteristics of a good citizen.

2. Requirements for voting in the state of Virginia and Appomattox County.

3. State and local taxes. How assessed and how collected.

4. Need for more taxes. The strong and weak points in the Virginia tax system and the sales tax.

5. Costs and benefits of education. Influence of radio, television and comic books.

6. Customs and conditions of our allied countries and of a communistic country.

Study of the International Foreign Youth Exchange Program.

At the county-wide Achievement Day program an illustrated talk was given by Dr. B. L. Hummel, just returned from Korea. Much information was gained from this talk on the international situation.

Although some work was done on the international phase, most of the discussions were on how to become a better and more informed citizen. As a result of this, many club memoers voted who had never done so before.

The women became so much interested in this topic that they decided to keep this as the goal for the coming year. However, this year, International Understanding will be the topic stressed. There will be some more discussions on democracy and a study of the United Nations.

Each club is making a scrapbook during this study and a silver bowl is being offered as a prize to the club which has the best scrapbook.

This is only one of the many activities carried on in Home Demonstration Club work.

Mrs. E. Carter Martin is County Federation Goal Leader.

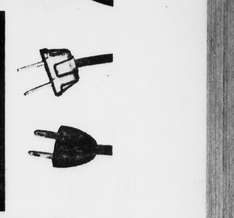
WHAT IS ample-plus WIRING?



. . . it's like having $100 vacation cash in your pocket, PLUS $500 in travelers' checks.
. . . it's like having three speeds on your car PLUS a fourth speed you may need in the future.
. . . it's like having the next chapter of a continued story at hand when you have just finished the current installment.
. . . it's like your home was wired for the electric appliances you had in 1930, 1940 or 1950, and now had AMPLE-PLUS wiring for 1955 and 1960.

SO IF YOU ARE BUYING, BUILDING OR RENTING, be sure your home or apartment has ample-PLUS wiring to take care of all your present and future electrical needs.

TAKE AUTOMATIC WASHERS (lots of hot water) . . . electric Clothes Dryers . . . electric Garbage Disposals . . . a second TV set . . . those electric appliances you received as presents last Christmas.

THEY, OF COURSE, demand ample wiring in your home. But even more important are the other electric appliances of Tomorrow! There is every chance they will require AMPLE-PLUS wiring. Wise people will plan for Tomorrow TODAY and see their Electrical Contractor, Dealer, Architect or Home Builder now.
